

Ayomide Olaleye

B.Sc. Computer Science | Fullstack AI Developer

Ogun State, Nigeria · +234 701 432 9650 · olaleye349@gmail.com · [LinkedIn](#)

Professional Summary

Computer Science graduate and versatile Full-Stack & AI Developer with a strong foundation in building scalable web applications, intelligent systems, and user-centric digital solutions. Experienced in modern frontend and backend technologies, API design, databases, and AI-driven features such as automation, data processing, and intelligent interfaces. Known for translating complex problems into clean, efficient, and maintainable code. Passionate about continuous learning, shipping real-world products, and leveraging technology to solve meaningful business problems.

Technical Skills

Languages & Tools: Python, HTML, CSS, TailwindCSS, React, SQL, JavaScript, TypeScript

AI / ML: RAG pipelines, LLMs, embeddings, prompt engineering, similarity search, evaluation

Frameworks: LangChain, LangGraph, FAISS, ChromaDB, OpenAI APIs, SentenceTransformers, Streamlit

Other: Git, API integration, documentation, system design

Education

B.Sc. Computer Science (Honours) (3.13 / 5.0)

2021 - 2025

Federal University of Agriculture, Abeokuta

AI & Software Projects

Recto AI Designer

2026

AI-powered flier design generator app

- Live url [rectoai.click](#).
- Used React JS to build the frontend interface.
- Designed prompt logic to generate visually appealing and contextually relevant fliers.
- Used postgresSQL for backend data management.
- Used supabase for database and authentication management.

Tradesquare (On Going)

2025 - present

The all-in-one students marketplace for everything a student need

- Used React JS and TailwindCSS to build the frontend interface.
- Using fastAPI for backend API development.
- Waitlist url: [tradesquare.ng](#)

Seal Me

2024

An anonymous messaging application

- Live url: [sealme.vercel.app](#)
- Used Next JS and TailwindCSS to build the frontend interface.
- Used firebase for backend data management.

Research Experience

Undergraduate Researcher — Impact of Progressive Web Applications features on user engagement

Jan - Jun 2025

Department of Computer Science, FUNAAB | Supervisor: Dr F. T. Ibharalu

Work Experience

Industrial Training Student, FUNAAB ICT, Ogun State

May - Aug 2024

- Conducted troubleshooting and repair of faulty computer systems and accessories.

- Built a web based system for logging computers brought into the workshop.
- Engaged in troubleshooting and installation of computer networks.
- Helped in maintenance of solar systems.

Web Development Intern at HNG

Jan - April 2025

- worked on frontend interface of web applications..
- Collaborated with other developers, designers, project managers to build genz ad (An advert generation platform).
- Engaged in troubleshooting and installation of computer networks.
- Became top 400 finalist out of 11,000+ interns.

Core Competencies

Applied AI & NLP · RAG Systems & Embeddings · Prompt Engineering · Web Development · Backend Development · IT Support · Web Development Tutoring

Certificates

- BSc. Computer Science - FUNAAB
- Frontend Developer Career Path — Scrimba - [open](#)
- Programming With JavaScript — Coursera - [open](#)
- Working with Open AI API — DataCamp - [open](#)
- Version Control — Coursera - [open](#)
- HTML & CSS indepth — Coursera - [open](#)

Professional Interests

Applied AI · Machine Learning Systems · NLP · AI for Business · Human-Centered AI · Software Development
